FOR IMMEDIATE RELEASE

Interstate-80 at Midway Road Full Overnight Highway Closures During Bridge Work Starts Tuesday, December 12, 2017 Expect Delays

SOLANO COUNTY— The California Department of Transportation (Caltrans) is continuing construction of the new Midway Road Bridge above eastbound and westbound Interstate-80 (I-80). The bridge is located in rural Solano County just east of Downtown Vacaville.

Starting Tuesday, December 12, 2017, Caltrans and its contractor are scheduled to perform additional adjustments to the existing bridge falsework over I-80.

I-80 Overnight Closures and Detours-December 12 and December 13, 2017

To ensure worker and public safety during the work, a full highway closure will be in effect on eastbound I-80 at Midway Road starting Tuesday, December 12 at 11:00 PM until Wednesday, December 13 at 5:00 AM. Motorists will have a short detour onto adjacent auxiliary lanes and back onto eastbound I-80.

A full highway closure will be in effect on westbound I-80 at Midway Road starting Tuesday, December 12 at 11:00 PM until Wednesday, December 13 at 4:00 AM. Motorists will be taken off I-80 at Midway Road, then southbound on North Meridian Street, then re-enter westbound I-80 from North Meridian.

Detour signs will be posted. CHP will help direct motorists.
Please allow for extra time and expect delays. All work is weather dependent.

Midway Bridge Long-Term Closure

The Midway Bridge will remain CLOSED until the new Midway Bridge is completed as early as spring 2018. Local detours remain in effect.

Project Benefits

The project will demolish and rebuild the Midway Road Bridge. The work seismically retrofits the bridge and brings it up to the latest seismic safety standards.

TRAFFIC ADVISORY

Midway Road Bridge Closure-Detour Routes

During the construction of the new Midway Road Bridge, the Meridian Road Bridge above I-80 and just west of the Midway Road Bridge will remain **OPEN** and serve as a general detour.

Construction Zone Activity

Residents and businesses near the Midway Bridge may temporarily experience increased construction noise.
